1 VENDREDI. Circonscision 1-364

Very quiet New Years in Cairo Had full marching order in morning with 50 rounds of ammunition. Was inspected by the O.C. The O.C was drunk on N.Y.s eve and some of the boys let his tent down. In afternoon had to go as escort for prisoners to the detention barracks. At night went into Cairo with H Radcliffe we missed the tram and had to take motor car very expensive. Came out from town on 15 minutes very fast going splendid road here for motors all main roads are asphalt. Very always busy street of road here.

2 SAMEDI. S. Basile 2-363

At 8.30 this morning had to clear everything out of our tents. Then struck camp for 3 hrs. cleaned up around the tent and sprinkled disinfectant on the sand. At 11 o'clock had rifle & bayonet inspection by officers. Then we had a letter read out from General Maxwell about the conduct of the men in Egypt. He said men would never get fed if they carried on the way they were doing

dismissed at 12 o'clock for rest of afternoon going into Cairo with Sergeant Major

Harold & Jack Watson are going to take a few Photos in Heliopolis Went inside Catholic Church in Heliopolis beautiful building Caught tram went into Cairo had good tea cost 10 piastre then went to pictures they were very good. Arrived back in camp at 9 30 feeling fit.

3 DIMANCHE. Ste Geneviève 3-362

Church Parade at 9-30 out on the parade ground

Had tent inspection and dismissed at 11 o'clock for the day. Didnt go out of camp

Went down to C.K.S. and started writing letter to Dave began at 1/30 + didnt finish until 7/30 wrote them 16 pages on all our voyage everything I saw and what I have been doing since I came to Cairo C. Chaplin gave us good sermon lasted 20 m. He is very funny at times Well liked by the men.

JANVIER

4 LUNDI. S. Rigobert 4-361

Out on parade at 7/30 this morning and went away out over the sand for abot 4 miles Were digging trenches and had instruction in putting down barb wire entanglements Pretty easy day returned to camp at 5 oclock. Staying in camp tonight. Very hot today and we saw some good mirages get very fit again and hardly notice the pack on our back.

JANVIER

5 MARDI. S. Siméon 5-360

Out on parade at 7 30 again and march out about 6 miles Had field firing with ball ammunition by platoons at 900 yards and we done some putty good shooting In afternoon had practice at bayonet drill. The head quarters just got news from the front saying that they could not teach us to much about it as they are at it every day and the most effecent man wins. On fur pucket to night have to stay in camp might be called out any time supposed to sleep in clothes

6 MERCREDI. Epiphanie 6-359

Out at 7-30 again this morning
Marched out about 4 miles.
Today we had defend a hill while
A boy attacked. We dug trenches
and were that well conseald
that they could'nt find us. Nos
+6 plutoons were reserve and the
enemy came up that close that
we rushed out of our trench + captured
them. The Colonel gave us great
praise on the way we carried it out
said it was excellent. Got back to
camp at 4.30. Was blowing hard
today the first time since we
came here and we were nearly
blinded with sand.

7 JEUDI. S. Théau 7-358

Got quite a nice change this
morning did'nt go on parade
until 9 oclock and we went out
and done daynot drill. Dismissed
at 10 oclock and then we were
all vaccinated in three places
on the arm warnt sore. Were
supposed to fall in again and
go out for a all night attack
but this has been cancelled
owing to the wind and sand
storms which are terible. Are
falling in at 6-30 and going
for a short route march which
will be very decent as it will
be nice and cool. Had a pretty hard
march it was a concreation march. We
all went out on different direction and
had to march on to a given point
out on the desert only had a map +
compass were only about 300 yards
out marched about 10 miles altogether
Very tired when we arrived home
served us out coffee + biscuits

8 VENDREDI. S. Lucien 8-357

I didn't go out on parade until
11 30 this morning and had to
attend church which went out at 7 30
and had to march themselves into
the plain. No 5+6 Platoon were
in the leaves had a very easy
time but the sand storms were
something terrible. We pulled out
about half way through just about
choked with sand and got
back to camp + 4-30 looking
very dusty + grimey. It started
to rain tonight something common
for us to see going to bed early.

9 SAMEDI. S. Julien 9-356

Paraded at 11 oclock in drill order
rifle. Went out on battalion
parade and we had the pleasure
of hearing a speech from Hon
Thomas Mc ackenzie and he was
very good. Told us it depended on
ourselves whether we go to the front
or not, just if we get fit enough.
Were dismissed for all day
at 12 oclock. I had to go on picket
in Cairo at 4 oclock and didnt
get home till 12-30 feeling pretty
tired after walking about all
night

10 DIMANCHE. S. Paul, erm. 10-355

Today had leave from reveille
till 10 o'clock at night Joe Harold
Jack & I went to the museum
and spent about 3 hrs in
looking round it is a wonderful
full place. Had a good dinner
and then went to skating
rink in the gardens where the
band was playing stayed there
all afternoon had tea in town
Arrived back in camp at 7-30
feeling fit only for our
vaccination is starting to tickle
us up a bit

11 LUNDI. S. Hygin, pape 11-354

Out again at 7-30 this morning
All the ones with bad arms
were allowed to go out without
a rifle & pack. We started
divisional drill today with our
detachment of artillery & field
ambulance with us. We marched
through Heliopolis and away
out the main road to Suez
and then we had to attack
a hill about 2 miles away
We put up a great performance
and the General gave us great
praise and told us it was
done just about to standard
Arrived back at 4 o'clock with
a pretty sore arm

12 MARDI. S. Fréjus 12-353

Out on the march at 8 oclock and marched out about 7 miles the farthest we have been yet We had to entrench around foot of a hill against an imaginary attack from the direction of Sully Everything was well done At 2 oclock the guarter guard left for camp I was in it went on guard at 5 oclock and came off at 6 oclock next morning.

13 MERCREDI. Baptême de N.-S. 13-352

Next morning didnt have reveille till 7 oclock something unusual gen always been at 5-30. Didnt do ang drill all day but went out at 6 oclock for the night. We marched out 5 & miles and camped for night. Dug beds in sand and made nice warm bed with overcoats Up at 7-30 had good breakfast and then marched on 2 miles farther. Done some field firing with ball then had dinner and then — No 5 + 6 platoons had a race back to camp. We had got a start had 10 minutes spell No 6 passed us and they beat us by about 10 yards. Very tired

JANVIER

14 JEUDI. S. Hilaire 14-351

We had a nice easy day done nothing all day but just lay about the tents and slept and smoked and wrote a few letters. We are going out at 6 o'clock to sleep out but the doctor stopped them to many getting colds. But we were told that we would have a night alarm and had to sleep near stoves.

JANVIER

15 VENDREDI. S. Maur 15-350

We started early this morning at 12-30 We all had our clothes boots on and when the alarm was given we were only 3 minutes in getting our overcoats on and on the parade ground. We left the camp at 12-45 and went for a long march and did not get back until 7 o'clock in the morning. The Colonel was very pleased by the smart way we turned out so he gave us the rest of the day off.

16 SAMEDI. S. Fulgence 16-349

Had a pretty easy day had rifle and bayonet inspection and a little target drill

17 DIMANCHE. S. Antoine 17-348

In the afternoon Harold Jack & I went down to Mair's the terminus of the line and had a few miles ride round on donkeys It is very pretty down there we rode through rows of palms and green paddocks which was a lovely change to the sandy desert. We went straight through to Cairo from there and went to a variety show was very good.

18 LUNDI. Ch. de s. Pierre 18-347

Out on parade at 9-30 this morning and we had a mobilization parade and were inspected by the General. Then we went for a route march away round by the canal all the way through palm trees and green fields and it was glorious. We returned to camp about 5 oclock. At 6 oclock Harold and I were on guard at the canteen for 3 hrs.

19 MARDI. S. Sulpice 19-346

Went out at 7 oclock this morning and went out about 4 miles. Very foggy + misty this morning and we had to stop drill as we could not see the way we were going. Fog cleared at 12 oclock and then we had dinner and we did not do much more drill in the afternoon and returned to camp at 4-30 very hot this afternoon.

20 MERCREDI. S. Sébastien 20-345

Very very day done 9 F Degrees

shd not be after dark would
do me every day. Very hot
today.

21 JEUDI. Ste Agnès 21-344

Left camp at 8-30 this morning
with blankets & every thing
complete and marched out
about 8 miles when we had

JANVIER

JANVIER

28 JEUDI. S. Charlemagne 28-337

Very cold last night reveille at 6 o'clock breakfast at 8 on parade at 9. Went out afive chain and done a little bayonet exercise and practising rapid fire. The heat is some thing terrible. We have to go out in full marching order this afternoon. We had a attack practice over the sand which was terrible hard work. Have to be very careful there are a lot of snakes and other poisonous insects. We are not allowed to write were we are all the letter are to be censored.

This censoring letters is only a farce they just seal them up and let them go It is just to make the chaps careful what they put in them

JANVIER

29 VENDREDI. S. Franc. de S. 29-336

Very mild last night and had a real good sleep Went out in full marching order and were inspected by the General in charge of the land forces he is from India Told us we were fit enough to go anywhere We had a attack under his supervision Back into our camping ground at 6 o'clock They have brought all the tents down here from Zeitun. Most likely make this our base. We are practising entrenching this afternoon I was Captain in charge of the blankets a nice easy job. Rest were away 2 hrs There are about 6000 Turks with a lot of guns only 10 miles from the canal.

JANVIER

30 SAMEDI. Ste Bathilde 30-335

Reveille at 6 o'clock breakfast 8 which consisted of a slice of bread and a piece of cheese and a cup of tea not very much to keep a man going. Our tents are down here pitched them to day and are going bathing in the canal which will be O.K. and is very hot Went down to the canal at 2 o'clock and had a real good swim. Ismalia is a very pretty place beautiful gardens right on the edge of the canal. There are a few canoes on the Ismalia lake and round the edge is nothing but trenches and we all have to take our turns of doing guard on the trenches.

JANVIER

31 DIMANCHE. Septuagésime 31-334

FEVRIER

1 LUNDI. S. Ignace 32-333

Out at 9 o'clock and had a very
easy morning done a little
bayonet drill and then were layon
the sun. In the afternoon we march
round to the Umaka football grounds
and done a little rifle exercise
and then we had another swim
Two of our platoons have gone
to the Transvaal and all of boy
but they haven't fired any shots
yet although they are near
the Turks in the distance. Some of the
Auckland boys were out of pasture daily
went out to fox and the Indians fired
on them no one was hit they dropped
down flat on the ground. These Indians were told
to fire on everyone outside their post

Broke 6 breakfast at 7 o'clock it
rained all last night and was pretty
cold Had all our kits moved to the
dug outs where we slept. Then we
changed our Paybooks rounds &
anything. At 2 o'clock left by
ramps for the trenches took over
with the canadians relieved on
the Traverses at 5-30 and I had
to go on guard. Rather smelly
trenches last night and it was
very cold on guard. But I didn't
feel the cold a great deal as the
enemy were not far away and
we expected to be attacked
at any time The excitement kept
me awake and one felt alert

We called to arms at 4 o'clock this
morning by a massed bugle call.
Lay down again until 5 o'clock and then up
again. At 5-30 we could see the enemy
advancing over a hill about 1000 yds
away and our big guns opened fire
The Turks returned but to no effect all
there shells went over our heads and burst
in the canal the closest two about 50 yds
away and it hit a mule. There is French
cruiser in canal doing some good firing
over our heads great sensation makes one
shake a bit at first. Beggars going off and on
all day. We are the first Js under enemy fire
Had a very cold night last night The Indians
and the Turks had a go last night
bullets 15 and coppers 3 We were up

FEVRIER

4 JEUDI. S. Gilbert 35-330

Had a early breakfast rolled our blankets and got everything ready for a attack. We are going out at 11 o'clock Our company and Bengal Lancers and a large number of Indian troops and artillery are going out to locate the position. We marched out about 6 miles and our scouts came in touch with the enemy they were fortified strongly so we had to retire. Our scouts then found them in another position so we started to advance again. We advanced to within a hundred yards of this position and they started to retire. They retired to try and draw us into a trap for they had 11 battalions of infantry and a lot of cavalry working round on our right flank trying to cut us off from camp. But officers saw this so we started back to camp as fast as we could go. We were out in the front 12 hours last night

FEVRIER

5 VENDREDI. Ste Agathe 36-329

Called to arms at 5 o'clock this morning but could not sight the enemy. They have this place one mass of trenches and mined everywhere and have big guns placed all along the banks of the canal. Came in from front trenches at 2 o'clock had a good breakfast and then lay around in the sun till have a good rest. In afternoon Hazels + I had a good swim in canal and then our company had to fall in for fatigue. We had to cut a roadway round the edge of the canal so that we could get the whole of the Australians + their artillery over as having of required. We were supposed to make a big attack tomorrow but it has been cancelled as the enemy have changed their position. Russky [illegible]

6 SAMEDI. S. Amand 37-328

Left on the inner trenches last night
Were called to arms at 5 o'clock by
stand to & left straight had to sit
by enemy only a dog. Had a little
bit of breakfast and then we fell in
for fatigue. Had to dig a big hole
to protect our officers from shell
fire. Then we all went for a swim
in the canal was very decent. Then
we dug out other communication trench so we
could get into it to protect us from shrapnel
They have their men of war in the
canal. Have the Swiftest one) is the Ely
of Wight. She has 11 - 12 pound guns. What
Monday she sailed over 300 Turks with 6
shells Fred Lidle suffocates with a
shell explosion. Sports 7's Wounded one

7 DIMANCHE. Sexagésime 58-327

Had a real good sleep last night
called up at 5 o'clock. Had breakfast at
6 o'clock and are now out digging trenches
and communication trenches back
to the reserves. The Turks have had over
3000 casualties already. All the Pro Jakes
are scattered all over the place. There
is only 2nd Regt - here. The Officers
in charge of the Indians. Thank we
are a lot of beggars for the way we
behaved under shell fire. We are under
the Officers from India. a real good fellow
to now. I do to work a man. Were
allowed to clash with our equipment
of last night

8 LUNDI. S. Jean M. 39-326

Up at 5 o'clock this morning and hung round till 6 and then we lay down again until 7-30. Had breakfast and then got our full marching order ready to make a start back to camp. Left our trench at 9 o'clock for camp and the first Turks came to take our place. The Turks have all retired they got a big start & the german Officers in charge of them said that the canal was full of german troops and they had nothing to do but cross the canal and they would all get prisoners of war. There were 8 of our trucks in the canal instead of German.

9 MARDI. Ste Apollonie 40-325

Reveille at 6 o'clock but did not get up until 7-30 as we all back on camp and have not slept with my clothes off for over 10 days and I felt my self was decent to stay off and have a good night rest. Had a little piece of bread and cheese for breakfast and then we had kit inspection and then were dismissed for morning In afternoon went for a bath. Water was decent but was very cold.

10 MERCREDI. Ste Scolastique 41-324

Reville at 6 oclock and breakfa. at 8 "such as dis as" Had a short parade in the morning and a short parade in afternoon under O.C. Had a real easy day and it was very hot. Harold and I always sleep outside and it is all right. Have nt slept inside for over 2 weeks. The Australians were down here but they have been sent back to learn how to drill. They are terrible roughs had to close all the hotels here for they painted the town red and would not do any drill

11 JEUDI. S. Benoît 42-323

On fatigue at 7-30 this morning had to go and load ammunition on a transport and go down with it to the jetty and load it on a launch for it had to be taken to the Sudans further down the canal. Got back to camp at 10 oclock and then I went down for a bathe which was lovely In the afternoon we had a little attack practice out over the sand and it was terrible hot for we had to go in full marching order. Were dismissed at 4 oclock. Am absolutely broke today first time since I left. Dont know when we are getting paid Havent had pay 3 weeks

12 VENDREDI. Ste Eulalie 45-322

Up at 7-30 this morning had a little breakfast not enough to keep a fly going. Had to go out in full marching order at 9 oclock and there was a lot of complaining. We call ourselves the famel corps. Have to do hard work on half a loaf of bread for the day, a little jam and half a cup of stew so you can imagine how we fare. Jerusquek. There was very near a strike today as to guten us a bit but they paid us a fuo pence and we have to spend it in food. Had a short parade this afternoon and are dismissed for rest of day. Leave tonight but not going out.

13 SAMEDI. S. Lésin 44-321

Very easy day there was a bit inspection in the morning I missed it was detailed of to go to a funeral a sailor of the marow as he was shot in the nose not by a Turkish sniper and died from the wound. He was shot while we were in the trenches so our Regt sent a few men from each Company. Our band played the "Dead March" and it was splendid. In afternoon went down for bathe the water was lovely. Was unfortunate enough to jump on a bottle and put a nasty cut in the ball of my little toe got it fixed up and marched back to camp. Turks are supposed to be advancing again so we might have a little more excitement

with steel and marched down
for a bathe and then we went to
football ground and had church
parade. Have to go on guard
tonight at engineers yard

Did not go out on parade until 10-30. We marched round to football grounds where we done some ceremonial drill. Saw a company mounting guard and dismounting. In afternoon we went for a short march and done a little attack and we also had to cross the water creek about 5 to 10 ft wide and this caused a little amusement. Some tried to jump them and they would just miss and flop up to their bottom. We returned to camp about 4 o'clock feeling very tired. It is terrible hot now we are all getting like negros.

Marched round to gardens and had a competition in guard mounting. They picked 15 men from each company and the best company and the rest of the men had to judge and give a vote for the ~~winner~~ best team. I was one of the men picked from our company and we had to go first. We got through very well and we would have tied with 12th Nelson Company if we had not voted. They all said that we won easily. Mr Lavery shouted for us all very good of him. We had a real good shot and then and I got on the flop.

Yesterday we went out about 2 miles and dug trenches for target shooting. We had to shoot in company at 500 to 600 yards and General Wallace was there and we made a terrible mess of it our officers didn't give us any orders and we had to stay away on parade spoiled our good reputation. We returned to camp and got towels and went down for a swim which was lovely. Yesterday was the hottest day I have felt since we came here

Out at 9 o'clock this morning with haversack ration marched away round the edge of the lake about 2 miles from camp. There we stopped and had a little practice at range finding and then we started at the long 7 de-water race to the lake we were on and I stayed in about ½ hr it was glorious came back to camp at 11 o'clock after having a real glorious good day as I have had.

The aerodrome was quite close to station and I went and had a look I saw an airplane run along the ground and rise just like a big bird it was a fine sight It circled round and then came down again. They come down at a great angle and when close to ground he lifts the plane and settles just like a bird runs along the ground and stops. He looks as safe as a church. We boarded the train at 10 and arrive at Shalimah at 12.30 and then marched back to old camping ground Had to pitch tents as tents to others and we had a few of these ornaments pitched in. I have a copy of Gil Blas last night and was well to get the last

This diary is the property of Robert Henry Tootill 6/5116 of North Street Timaru South Canterbury New Zealand. We enlisted for active service at Timaru on August 9th 1914 and on the 14th we went to the training camp at Sumner Christchurch. We arrived at Alexandria Egypt on December 6th after a splendid passage and then we took train to Heliopolis where we completed our training on the sandy desert.
We went to Lemnos on the 26th of January to help to defend it against the Turks and was under fire on February 3rd when they made their big attack. We left here for the Dardanelles on April the 10th and arrived there on Sunday the

ARTICLES D'ARGENT. — La poste délivre, moyennant un droit indiqué ci-après, des mandats de postes et des mandats-cartes payables en France, en Algérie, dans les bureaux français établis en Tunisie, au Maroc, dans le Levant, en Chine et dans les colonies, ainsi que pour tout militaire, marin ou employé de l'Etat, aux armées ou sur les bâtiments de la flotte. Le droit à percevoir sur les mandats du régime intérieur français est fixé comme suit : jusqu'à 20 fr., 5 cent par 5 fr. ou fraction de 5 fr.; de 20 fr. 01 à 50 fr., 25 cent.; de 50 fr. 01 à 100 fr., 50 cent.; de 100 fr. 01 à 300 fr., 75 cent.; de 300 fr. 01 à 500 fr. 1 fr.; au-dessus de 500 fr., 25 cent. en sus par 500 fr. Depuis le 1er novembre 1896, les mandats-cartes à destination des communes rurales sont payés au domicile des destinataires par les soins de l'administration.

Les mandats sont payés au titulaire sur la présentation d'une pièce justificative de leur identité (lettre, permis de chasse, passeport, quittance de loyer ,etc.).

On peut faire toucher un mandat par un tiers en l'acquittant d'avance en remettant à ce tiers une pièce constatant l'identité de l'ayant droit.

Les mandats de l'intérieur sont payables seulement dans les deux mois de la date de leur émission; pour les mandats des colonies et de l'étranger, différents autres délais de prescription sont fixés. Lorsqu'un mandat est perdu ou périmé, il faut, pour en percevoir le montant, adresser une demande (la déposer dans un bureau de poste) sur timbre de 60 centimes à M. le Sous-Secrétaire d'Etat aux Postes et Télégraphes.

Les *mandats-poste* et les *mandats-cartes* diffèrent en ce que les mandats-poste sont remis aux particuliers qui les adressent eux-mêmes aux destinataires, tandis que les mandat-cartes sont expédiés directement et gratuitement, par les soins du receveur qui les a délivrés, au bureau de poste où ils sont payables.

Dans le service extérieur, tous les bureaux émettent des mandats-cartes, ainsi que les agents embarqués sur les paquebots; ils sont payables dans tous les bureaux.

Le bureaux délivrent encore des *bons de poste* de valeurs fixes de 1 fr. à 20 fr., sans fraction de franc. Pour les bons de 1 à 10 fr., le droit est de 5 cent., pour ceux de 11 à 20 fr., il et de 10 cent.

Le paiement doit être réclamé dans les cinq jours (dix jours pour les militaires en Algérie et en Tunisie) qui suivent l'arrivée du télégramme-mandat à desti-

nation. Passé ce délai, les mandats sont renvoyés au bureau d'origine pour être remboursés à l'envoyeur. Toutefois, lorsque le destinataire demande le paiement dans un autre bureau que celui indiqué primitivement, le mandat peut être réexpédié postalement dans le service intérieur.

Depuis le 1er juillet 1894, des communications particulières peuvent être ajoutées aux mandats télégraphiques du service intérieur.

MANDATS TELEGRAPHIQUES INTERNATIONAUX. — Des mandats télégraphiques sont échangés, jusqu'à concurrence de 500 francs, avec certains bureaux : la Bulgarie, le Danemark, la Roumanie et la Serbie, et de 1.000 francs pour les autres pays. (La liste des bureaux du pays de destination se trouve dans tous les bureaux de poste.)

Ces mandats peuvent comporter, indépendamment des indications essentielles du mandat, une communication particulière à l'adresse du bénéficiaire.

MANDATS INTEERNATIQNAUX. — Des mandats d'articles d'argent, dits mandats internationaux, peuvent être échangés entre la France et l'Algérie et divers pays étrangers, en vertu de conventions ou arrangements spéciaux et dans les conditions déterminées au tarif général. (A ce sujet, les renseignements nécessaires sont donnés au public par les receveurs des postes.)

CHARGEMENTS ET RECOMMANDATIONS. — Le public est admis à faire charger ou recommander les objets dont il veut tirer reçu et dont la remise doit être faite également sur reçu au destinataire. Le port est payable d'avance au guichet du bureau de poste où le dépôt doit être effectué.

Chargements. — Le chargement s'applique aux lettres et boîtes renfermant des valeurs déclarées. Pour les lettres, la taxe est de 10 cent. par 500 fr. de la valeur déclarée, plus le coût ordinaire de l'affranchissement et un droit fixe de 25 cent.; pour les boîtes, un droit fixe de 25 cent. et un droit de 10 cent. par 500 fr. jusqu'à 10.000 fr., plus le coût de l'affranchissement à raison de 5 cent. par 50 gr.

Les timbres-poste servant à l'affranchissement doivent être espacés.

Recommandations. — Les lettres, sans condition de fermeture spéciale, et les cartes postales peuvent être soumises à la formalité de la recommandation, moyennant un droit fixe supplémentaire de 25 cent.

Les objets recommandés paient, en sus de la taxe

qui leur est applicable suivant la catégorie à laquelle ils appartiennent, un droit fixe de 25 cent. La perte d'un objet recommandé donne droit à une indemnité de 25 fr.

POSTE RESTANTE. — Le public est admis à recevoir sa correspondance poste restante quand l'expéditeur a remplacé l'indication du domicile par celle de *poste restante*. Il doit justifier de son identité.

Toutefois, un chargement adressé primitivement poste restante ne peut être réexpédié à un domicile, il ne peut être retiré qu'à la poste restante.

ABONNÉS. — Des boîtes de commerce, permettant au public de retirer sa correspondanre au bureau de poste dès la sortie des facteurs, sont mises à sa disposition, moyennant un prix d'abonnement qui varie suivant les villes.

Le nombre des valeurs à insérer dans l'enveloppe fournie par l'administration est limitée à cinq par enveloppe; toutefois, ce nombre est élevé à quinze lorsqu'aucune valeur ne dépasse 6 fr. Chaque envoi ne doit contenir que des effets payables dans la circonscription postale du bureau destinataire et faire un total maximum de 2.000 fr. L'affranchissement est de 0 fr. 25 par enveloppe expédiée. Le receveur des postes envoie franco à l'expéditeur, soit les effets impayés, soit un mandat de poste représentant la valeur des sommes recouvrées; il prélève le même droit que celui qui est prélevé sur les mandats ordinaires sur le montant des valeurs, déduction faite de la remise accordée aux agents, qui est de 10 cent. par 20 fr. et par effet, sans qu'elle puisse s'élever à plus de 50 cent. par effet, et la taxe de 10 cent. par valeur à recouvrer, représentée par l'apposition de chiffres-taxes. Observations sur le compte des mots et des chiffres

MOTS. — Les mots composés en usage dans la langue française, comme *aujourd'hui, après-demain, contre-ordre*, ne sont comptés chacun que pour un mot. —

Les noms du département, de la commune, de la rue et les désignations relatives aux numéros des habitations, ne sont comptés chacun que pour un mot dans l'adresse. — Les noms de famille formés de plusieurs mots comptent pour le nombre de mots employés à les exprimer. — Tout caractère isolé, lettre ou chiffre, compte pour un mot. — Les traits d'union, les apostrophes, les signes de ponctuation, les alinéas ne sont pas comptés. — Pour chaque mot souligné, on compte un mot en sus.

CHIFFRES. — Les nombres en chiffres sont comptés pour autant de mots qu'ils contiennent de fois cinq chiffres, plus un mot pour l'excédent. — Les virgules qui séparent les chiffres, les points et les barres de division sont comptés pour un chiffre. — Même manière de compter pour les lettres ou groupe de lettres représentant des marques de commerce. Un groupe ne peut être compté pour un mot s'il contient à la fois des lettres et des chiffres ainsi 14*ab* compte pour deux mots.

RENSEIGNEMENTS

Dans tous les bureaux de poste auxquels a été réuni le service télégraphique municipal, les heures d'ouverture pour les opérations télégraphiques sont identiques à celles du service postal, de 7 ou 8 heures à midi, et de 2 à 7 heures du soir.

Les dimanches et jours fériés, les bureaux municipaux, ainsi que les bureaux limités, ne sont ouverts que de 7 ou 8 à 10 heures du matin ou midi.

Les comptables des bureaux ne sont pas tenus de faire les appoints dans les recouvrements des taxes qu'ils ont à encaisser.

Les dépêches doivent être déposées au guichet des bureaux. Il en est délivré reçu, ainsi que de la taxe principale et des frais accessoires, sur la demande de l'expéditeur, et ce reçu lui est coté 10 centimes.

Elles doivent être écrites lisiblement, en caractères usités en France, et comprendre : 1° en tête, l'adresse du destinataire; 2° le texte; 3° le nom de l'expéditeur ou sa signature lisible. Une écriture défectueuse est très souvent une cause d'erreur.

Valeur des principales monnaies.

La **France**, la **Belgique** et la **Suisse**, font seules partie de l'Union latine. La **Bulgarie**, l'**Italie**, l'**Espagne**, l'**Équateur**, le **Pérou**, la **Perse**, la **Colombie**, le **Vénézuéla**, **Tunis** et l'**État du Congo** ont adopté le système métrique, mais leurs pièces d'argent n'ont pas cours en France. Pour les pays à étalon d'argent la *Valeur réelle* est la moitié de la *Valeur au pair*.
