Mrs H. Anderson, of North Street, Timaru, received cable advice that her son, Private **J. Anderson**, had been admitted to the Walton-on-Thames Hospital, suffering from a wound in the foot sustained when he was fighting in France, last July. A later message stated that he is now able to do light duties. Before Private Anderson enlisted in Timaru he was operated on for appendicitis by Dr. Unwin, who also operated on him for his foot wound, in the Walton-on-Thames Hospital.
